To try whether an insole size fits a certain shoe size you may print the insole's shape in original size. For this choose in your PDF Reader application's print settings "Custom Scale: 100 %" and "Orientation: Auto".

After printing check if the scale drawn on the page is really 100 mm long. If not, the insole's shape won't have the correct size. In this case please try with modified print settings.

1:1  
100 mm (3,94')

1:1  
100 mm (3,94')

1:1  
100 mm (3,94')

100 mm (3,94')

1:1  
100 mm (3,94')

loadsol size A - 48

Please print this insole in  
DIN A3 or legal size format  
to get the original size.
